

## List of available tools and resources to support due diligence

The following tools and resources were identified and shared during the seven peer-learning sessions organised during the OECD-FAO pilot project on responsible agricultural supply chains (2018-2019).

### Tools and resources for financial institutions supporting responsible agricultural practices:

- OECD paper “[Responsible Business Conduct for Institutional Investors](#)” (March 2017) and its [fact sheet](#)
- IFC handbook “[Working with Smallholders : A Handbook for Firms Building Sustainable Supply Chains](#)”

### Tools and resources to understand the risks and good management approaches for informal labour:

- OECD website “[Child Well-Being Portal](#)” highlighting “[Policy Brief on Child Well-being: How can we help stop child labour?](#)” (February 2019)
- FAO website “[Child Labour in Agriculture](#)” highlighting “[Handbook for monitoring and evaluation of child labour in agriculture](#)” (2015) and “[E-learning Centre: Child Labour](#)”
- ILO Help Desk website “[Tools and resources](#)”, “[Training and events](#)” among others listed in the attached takeaways
- Fair Labor Association resources “[Hazelnut project in Turkey](#)” and [other projects, case studies](#)

### Tools and resources to measure and assess the social and environmental impact of a company’s operations:

- [B Impact Assessment](#) and [B Analytics](#): Tools to measure and manage companies’ impact on workers, community and the environment and to easily track companies’ performance across time, toward goals and against similar businesses. For investors and supply chain managers.
- Cerise [MetODD-SDG](#): An assessment tool that lets mission-driven businesses measure their contribution to the Sustainable Development Goals
- FAO: [Methodological guide to reduce carbon and water footprints in banana plantations](#)
- FAO: [Measuring and modelling soil carbon stocks and stock changes in livestock production systems](#)
- [MIX Markets](#): The industry-leading data and intelligence platform for socially responsible investors focused on inclusive finance in emerging markets
- OECD: [Measuring distance to the SDG Targets](#)
- [IRIS+](#): All in one easy-to-navigate system for investors to translate their impact intentions into real impact results. Managed by Global Impact Investing Network (GIIN)
- [So Pact](#): Software and resources to easily measure and manage the social and environmental impact. For investors, grant makers, public agencies, non-profits and businesses
- [LandAssess](#): A tool to help companies measure and monitor actions to demonstrate compliance with best practice in agricultural land investment, and can be applied to companies’ existing operations, new investment proposals, and extended supply chains.

### Tools and resources to support companies in meeting SDGs through due diligence:

- [The OECD-FAO Guidance on Responsible Agricultural Supply Chains - how it can help achieve the Sustainable Development Goals](#): a communications tool developed by a working group during the OECD-FAO Agricultural pilot project that illustrates how a company can use its due diligence process to contribute to the SDGs.
- [Global Survey on Sustainability and the SDGs](#): launched by the government of Germany to assess SDG awareness
